

Teaching multiplication facts for the Year 4 Multiplication Tables Check

(Course Code: MER19/20-CUR-GH-1)

Description:

This course will help Year 4 teachers prepare their pupils for the multiplication check that will be statutory this year for Year 4.

Whether your pupils are able to recall the facts already, or if they are struggling with 'remembering' facts such as 7 x 8, this course will provide guidance for both strengthening understanding of multiplication facts and helping pupils achieve fluency in their recall.

This course is based on Baroody's three phases of development to achieve fluency in recall of facts and will provide a clear explanation of why these three phases are important in pupils' development. It will provide alternative approaches to the teaching of multiplication facts.

Aim:

Benefits to you and your school:

Ideas for teaching multiplication facts

Resources to take away and use in class

A good understanding of Baroody's approach and the theory behind the teaching of multiplication facts

Target Audience:

Key stage 2 coordinators / Key stage 2 teachers / Maths Subject Leaders / Year 4 teachers

Methodology:

Tutors:

Georgina Hopson

Date:

Thursday 10 October 2019

Time:

13:00 - 16:00

Venue:

Chaucer Centre, Canterbury Road, Morden, Surrey, SM4 6PX

Merton MSI SLA SLA cost: £0.00

Standard cost: £95.00
